- ***Community-Based:*** To engage communities in addiction prevention and recovery support efforts through awareness campaigns, support groups, and partnerships, promoting a culture of emotional intelligence, happiness, and well-being.

- ***Empowerment-Oriented:*** To empower individuals, families, and communities to take control of their lives, make informed choices, and build resilience against addiction, through education, awareness, and psycho-spiritual support services.

OUR PROGRAMS

2-Pronged Approach in Addressing Society's Drug Problem:

1. **Addiction Prevention Program** (APP)
   - Three-Part Talk program to create awareness among stakeholders (LGUs, parishes, schools and campuses and others)

2. **Road to Recovery Program** (R2R)
   - The 5-Module (6 months) formation program, an aftercare intervention, for PWUDs willing to be helped have their lives back in order, and regain a normal life with their families and love ones.

VANGUARD TRAINING for program volunteers

- The 2-day training on **talk therapy** is composed of lectures and workshops in understanding the mind and the basic components NLP (neuro linguistic programming i.e, calibration, anchoring, rapport) & communication skills.

- ReForm Vanguard volunteers "lead" the way, journeying with the victims & their families from darkness into light. We are in the forefront of the fight against addiction, particularly in illegal substances or drugs. We are the 'first responders' in the restoration formation of PWUDS (people who use drugs) and the general public in the nation's fight against addiction, through drug awareness campaigns.
